

DRAFT Cell Phone Policy

Oct 27, 2022

In order for students to learn, they must be able to concentrate on the content of their instruction. The School Committee recognizes the negative consequences of cell phones on student distraction and behavior. Our schools will therefore not allow students to access cell phones during the school day. The administration is directed to design programs to enforce this restriction. Programs to curb cell phone use, like all our school programs, will be based on evidence of effectiveness and will be evaluated regularly.
